Professional Summary

Computer Science student skilled in Python, Linux and Docker with strong interested in backend development and DevOps. Passionate about building APIs, automation tools and scalable systems.

EDUCATION

[Sri Ramakrishna Degree College (Autonomous] *CGPA: 9.25* *Nandyal*
[Bachelor of Computer Science (B.Sc. Cs)-Pursuing] **2023 -2026**

Technical SKILLS

Languages: Python, Bash, SQL, HTML, CSS

Backend: FastAPI, JWT Authentication

Database: PostgreSQL

Tools: Git, Docker, Linux, Vs Code

Projects

FastAPI Authentication API FastAPI - Swagger UI

- Developed REST APIs with JWT authentication using FastAPI.
- Implemented password hashing and user login system.
- Integrated PostgreSQL database using SQLAlchemy ORM.

System Monitoring Tool (Bash) Pasulakarthik/Bash-Projects

- Developed a Bash script to monitor CPU, memory, and disk utilization.
- Implemented threshold alerts and automated logging.

Docker Deployment Automation

- Automated Docker container deployment using Bash scripts.
- Integrated image pull, container restart, and port mapping.

Log Analyzer (Bash)

- Parsed web server logs to extract traffic insights and error statistics.

Frontend Projects (Bigbasket & Flipkart) Bigbasket flipkart

- Developed a responsive clone of the Flipkart homepage using HTML and CSS.
- Recreated navigation bar, product sections, banners, and layout similar to the original website.
- Implemented responsive design for different screen sizes.
  Tech Stack: HTML, CSS

Certification

- Python – Reliance Foundation Skilling Academy (2025)
- Microsoft Office – AMC Computer Institution (2018)
- Communication Skills – APSSDC (2024)
