

Karthik Pasula

+91 8790518267 | pasulakarthik03@gmail.com | [Pasulakarthik](#)

Professional Summary

Backend-focused Computer Science student with hands-on experience building REST APIs using Python, FastAPI, PostgreSQL, and JWT authentication. Built backend systems with role-based access control, Dockerized deployments, and automation scripts. Passionate about designing scalable applications and seeking Backend Developer / Software Engineer opportunities.

Education

[Sri Ramakrishna Degree College (Autonomous)] CGPA: 8.00
[Bachelor of Computer Science (B.Sc. Cs)-Pursuing]

Nandyal
2023 -2026

Technical Skills

Languages : Python, SQL, Bash

Backend : FastAPI, REST APIs, JWT Authentication

Database : PostgreSQL, SQLAlchemy ORM

Tools : Git, Docker, Linux, VS Code

Concepts : API Design, Authentication & Authorization, CRUD Operations, OOP

Projects

FastAPI Authentication API

[Home](#)

- Designed and developed RESTful APIs using FastAPI and PostgreSQL
- Implemented JWT-based authentication and role-based access control
- Integrated SQLAlchemy ORM for efficient database operations
- Applied secure password hashing and login session management
- Structured modular backend architecture for scalability

GitHub: [Pasulakarthik/new_api](#)

System Monitoring Tool (Bash)

[Pasulakarthik/Bash-Projects](#)

- Developed a Bash script to monitor CPU, memory, and disk utilization.
- Implemented threshold alerts and automated logging.

Docker Deployment Automation (Bash)

- Automated Docker container deployment using Bash scripts.
- Integrated image pull, container restart, and port mapping.

Log Analyzer (Bash)

- Parsed web server logs to extract traffic insights and error statistics.
- Automated log analysis for performance monitoring and troubleshooting

Frontend Projects (Bigbasket & Flipkart)

[Bigbasket](#)

[flipkart](#)

- Developed a responsive clone of the Flipkart homepage using HTML and CSS.
 - Recreated navigation bar, product sections, banners, and layout similar to the original website.
 - Implemented responsive design for different screen sizes.
- Tech Stack: HTML, CSS.

Certification

- Python – Reliance Foundation Skilling Academy (2025).
- Communication Skills – APSSDC (2024).

Languages Known

- English–Speak and Write.
- Telugu–Speak and Write.
